

4. Photograph Policy

The purpose of photography on the website is (1) to assist members in recalling pleasant events they have attended with their Quad City Singles 40 Plus friends, (2) to show potential new members the type of events/outings they can expect to attend when they join our organization and (3) to provide the organization with a visual record of those events. With these goals in mind, the following policy has been adopted:

- Photographs will be placed on the website only by persons authorized to do so by the Marketing Director of Quad City Singles, Inc.
- Photographs may depict only events that were on the official Event Calendar on the website.
- Photographs must be of good technical quality.
- Photographs may not show only two persons of opposite gender (one man and one woman), but may show any number of persons of one or both genders (2 women; 3 women; 2 men, 4 men; 3 men, one woman, etc.). Exception to this statement: it is permissible to show one man and one woman dancing together.
- Photographs will show persons in an attractive manner; for example, subjects at a dinner would not be depicted as they put food into their mouths.
- Photographs of persons wearing name tags will be reviewed, and if necessary, the name will be made illegible to maintain identity security.
- Photographs may not include any prominent display of liquor.
- Photographs may not show any obscene gestures or inappropriate behavior.
